

Stay Ahead. Act Sooner. Manage Risk Smarter.

Say hello to **DataWatch** – your proactive compliance co-pilot, built to give you real-time oversight across your organisation’s critical areas. From compliance care to governance and HR, DataWatch watches the data so you can focus on making confident, informed decisions.

This isn’t just monitoring – it’s intelligent, AI-powered alerting designed to highlight what matters most *before* it becomes a problem.

DataWatch Dashboard

See What Others Miss

With the **DataWatch Dashboard**, you get a centralised, live view of your operational hotspots – from incidents to risks, complaints to care issues. Stay informed, stay ahead.

- **Visual Oversight:** Easy-to-understand displays let you track what’s trending, what’s overdue, and what needs urgent attention.
- **Real-Time Alerts:** Receive instant notifications when things go off track – no more surprises.

Configure Alerts Your Way

No two organisations are the same – that’s why **DataWatch** is fully customisable. With a simple wizard interface, you can tailor alerts to suit your specific needs.

- Set triggers based on unresolved items, thresholds, repetition, or emerging trends
- Choose who gets notified, when, and how
- Turn alerts on/off as required – complete control at your fingertips

Four Powerful Alert Types

UNRESOLVED ESCALATION EMAIL
ALERT

Notifies when issues stay open beyond a set timeframe

UNRESOLVED THRESHOLD EMAIL
ALERT

Activates when unresolved cases exceed a safe limit

REPEATED EMAIL ALERT

Flags recurring incidents within a time frame

TREND EMAIL ALERT

Detects emerging patterns over time for early intervention
